

MDRx is a Workers' Compensation (WC) billing / Revenue Cycle Management company that provides a unique **Pharmacy Claims Purchasing** program to physicians looking to improve care for the injured worker while capturing an ancillary revenue stream in a compliant manner (comprehensive legal opinions in every state).

Problems w/ Workers' Compensation

- **30%** of WC patients have difficulty/or are unable to obtain their doctor prescribed medications at some point during their care from traditional retail pharmacies (CVS, Walgreens, Walmart, Target, Rite Aid, etc).

MDRx Solution:

- PHARMACY CLAIMS PURCHASING PROGRAM
- Improves patient care by ensuring 100% of WC patients receive their medications
- Physicians generate an ancillary revenue stream in a compliant manner

Literally nothing changes for your practice except for the fact that you'll utilize a mail order pharmacy for work comp patient medications. MDRx handles everything else!

Through a network of independent pharmacies, your practice as well as your patients will experience the following benefits:

- Prescriptions are submitted through your current E-Prescribing software.
- Patients will have their prescribed medications shipped directly to their home.
- Patients will no longer experience denials or delays of their prescribed Workers' Comp medications.
- Patients will have zero out of pocket costs.
- Patients may have greater medication adherence when compared to those receiving their prescription medications at retail store-front pharmacies.
- You can generate a significant revenue stream for your practice.
- All billing and collections will be managed for the client.
